City of Nevada City

Dear Mr. Albaugh and Staff at City Hall,

I want to thank you so much for allowing my second grade class to display their artwork at the City Hall for the last two years. I know many of the parents have come to see their children's artwork because they have mentioned it to me when they bring their child to class.

I wanted to inform you that the set of artwork that I am hanging today, will be the last display. After 35 years of teaching, all of them at Nevada City Elementary, I will be retiring at the end of the school year in June.

One of my many joys over the years has been matting the children's artwork and then displaying it. The walls at the City Hall provided an excellent backdrop for the children's artwork.

Mark you calendars and keep your eyes peeled because our Reading Parade will be Friday morning, June 4. All the children at Nevada City Elementary and Gold Run will celebrate reading with a parade right down the middle of Broad Street.

Thank you again for allowing my students to showcase their artwork at City Hall.

Most Sincerely,

Nancy Broz

Dear Steve,

We greatly appreciate your
support in providing the M. Moore
Tree for Hayden. You made a
perfect choice locating it next
to the playground he played so
much. We are delighted to
have the granite bench in which
to set a bench that special place.

Thank you again for all
you have done for Hayden &
his family. We have been
blessed with your kindness

with Deep gratitude,
Susan McKern's Family
