RE: **Sign Application of Dr. Frederick Morrill, DMD**  
**711 Zion Street- "Nevada City Professional Dental Care"**

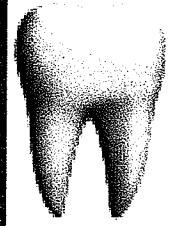

At the last Planning Commission meeting, the Chairman appointed Commissioners Wolters and Wright to meet with Dr. Morrill to revise the current signage to conform to the City's sign standards.

The Committee and staff met with Dr. Morrill who presented a revised sign which is attached. The background color will be dark blue and the tooth has been retained as suggested by Commissioner Parent. On the attached sign the tooth has a white background and that background/box will not be on the final sign (it was a computer graphic).

The total signage square footage will be 24 square feet and the one sign will be placed on the site.

The Committee was quite pleased with the new signage and thanked Dr. Morrill for his efforts.
