

## PUBLIC MEETING - PLEASE JOIN US

On **Thursday, September 21, 2017**, the Nevada County Local Agency Formation Commission (LAFCo) will consider a Sphere of Influence (SOI) reduction of Nevada City and will also consider the City's annexation strategy covering the next 20 years. The SOI delineates the probable physical boundaries and service area of a local government agency. On February 23<sup>rd</sup> LAFCo staff presented a recommendation to significantly reduce the City's SOI. City staff countered this recommendation and requested that LAFCo keep the existing SOI intact. Due in no small part to the adverse public reaction at the February meeting, LAFCo has given the City an opportunity to prepare and present a strategy for annexation over the next 20 years to demonstrate that the City is willing and able to annex those areas in its current SOI so that it should not be reduced. The City will be presenting this annexation strategy to LAFCo at their September meeting. The Commission will again consider the City's recommendation to retain the existing SOI in the context of the annexation strategy and will also consider LAFCo staff's recommendation to reduce the SOI. Please consider attending this meeting to be held on **Thursday, September 21, 2017 beginning at 9:30 am**, or soon thereafter, at the Nevada County Board of Supervisors Chambers (950 Maidu Ave, Nevada City).
